TECHNICAL SKILLS

Front End | JavaScript (ES5 and ES6), Python, React, HTML5, CSS3, Sass, Redux, TailwindCSS, Styled Components
Back End | Node.js, Express, PostgreSQL, MongoDB, MySQL, PrismaDB, RESTful API Development, Rails
Testing/Deployment | Mocha, AWS: EC2 / RDS / S3, Selenium, NextJS
Developer Tools | Git, yarn, npm, Webpack, Babel, Agile Methodology, Scrum, TDD, CI/CD, Visual Studio Code
IT Tools | Asana, JIRA, Okta, Confluence, JAMF, Active Directory, Adobe CC, Microsoft Office, Google Workspace

SOFTWARE ENGINEERING APPLICATIONS

Full Stack Engineer | Gjallarhorn | [Github Repo Link](#)

2023

A e-commerce storefront built with a serverless framework

- Collaborated with stakeholders to understand business requirements and implemented real-time stock management to increase retail efficiency by 25%
- Innovatively designed and deployed an e-commerce storefront using a serverless framework, resulting in improved inventory management, faster checkout, and increased customer engagement
- Successfully integrated Stripe webhook with Contentful and server-side rendering to update real-time results of transactions, reducing manual work and ensuring accurate financial reporting

Full Stack Engineer | Slapify | [Github Repo Link](#)

2021

A music streaming service clone where users can play music and add music to their playlists

- Ensured user privacy through frontend and backend authentication measures, password encryption through bcrypt to decrease security vulnerabilities, and React Router for the implementation of authorized features
- Connected the Rails Active Record relational database to AWS S3 for media storage and organization while simultaneously reducing server load and maintaining content security with AWS IAM
- Utilized unidirectional state management of Redux to directly handle data for form input submissions, simplifying related React components in the process

PROFESSIONAL EXPERIENCE

Lab Technician | [Tezerakt](#) @ Google

AUG 2023 - PRESENT

- Designed and installed custom lab test equipment to optimize network testing and troubleshooting processes, ensuring high efficiency in operations
- Managed complex wired networks, including DHCP and DNS configurations, to support seamless connectivity and robust network performance
- Methodically diagnosed and resolved device issues with wired and wireless networks, showing a comprehensive understanding of network architectures to maintain 95% test stability
- Streamlined inventory management processes to ensure accurate tracking and timely procurement of essential lab supplies and equipment

IT Support Intern | [Credit Karma](#)

FEB 2020 - SEP 2021

- Triaged 95% of tickets without escalation before service level agreement to ensure exemplary customer satisfaction
- Troubleshooted 300+ new and trending user issues daily, applying critical thinking and a problem-solving mindset
- Managed inventory sheets of toner, licenses, machines, and peripherals, resulting in improved work efficiency
- Led contractor onboarding training every 2 weeks to ensure a smooth hiring process
- Utilized JAMF, Okta, and Jira to manage issues and provide access for users to ensure employees are granted access based on their role

EDUCATION

Skyline College | Associate of Science in Computer Science

2025

App Academy | Full Stack Software Engineering Certificate

2021

Year Up | Quality Assurance Automation/Information Technology Certificate

2020
